## #2– COMMUNICATIONS AND PUBLIC RESPONSE

**Aileen Nakamura** (Coalition of Good Governance) stated:

"I hope you've had a chance to read the letter I and others have sent to you in regards to the software change that was made in the Ballot Marking Devices. Let's be clear – the Secretary of State's office is telling counties that "it's just a de minimis change" and that there's nothing to be concerned about.

As election officials, I'm sure your stance is that the State would NEVER instruct you to do anything that is against State or Federal law – why would they?

I only have two minutes, so I'm going to put it as plainly as I can.

This software change, which by nature requires the COMPELTE DELETION and ENTIRELY NEW UPLOAD of the application that runs the BMDs, is NOT EAC certified. And as soon as this software is uploaded, **Fulton County is no longer using EAC-approved equipment.**

How does the State explain this? They proudly say that they HELPED LEGISLATORS WRITE a loophole into GA code so that once they PURCHASE EAC-certified equipment, they can make whatever changes they want WITHOUT EAC approval. Let me repeat that again. As long as the equipment they PURCHASED was EAC-approved, any subsequent changes DO NOT HAVE to be approved. And the required testing for such a huge software change has NOT even been done.

I cannot stress enough how DIRE this situation is.

As one election expert explains it, this is akin to changing the avionics of an airplane as it's taking off. In fact, the Fulton County technicians responsible for uploading the new software were so disturbed by this irregular change in software that they refused to do the uploading, and instead had Dominion personnel do it."

**Scotty Crowe** stated:

"First I want to thank you for your willingness to take on a key, critical, scrutinized, powerful role in upholding our democracy as an Election Official.

Director Barron, thank you for your transparency and persistence in improving upon the situation we experienced here in June.

My name is Scotty Crowe, I'm a resident of Fulton County, born and raised in Georgia, and here as a member of [Showing Up for Racial Justice's Election Defenders initiative](#).

As you know, there is so much misinformation circulating about this year's presidential election and no shortage of barriers for folks to vote - many of which we have experienced and seen first hand. As we focus on what we can do locally, it is important to state the obvious: that a light is being shined on not our state, but our county, because of the importance of Georgia's role in the national landscape including, but not limited to, the outcome of the presidential election, the US Senate majority, as well as civil rights and the issue of voter suppression at large. Based on how the election is run here, we will be an example for the rest of the country.

In concert with your efforts to increase access and efficiency for all voters in Fulton County, I am here today to ask you to join other Election Officials across the country to publicly declare your pledge to count all eligible votes and make the voting process as transparent and fair as possible. While this should be inherent in your role, there is distrust and a lack of confidence in the system shared by Georgians across the state, and we want people to know that they should feel encouraged to vote and that you will play your role in defending their voting rights. [View the pledge here](#).

As Election Defenders, we also want to pledge publicly to support you in this role and stop any possible harassment from people wanting to interfere in the collection and counting of votes. We are concerned about intimidation at polling places, both to dissuade voters and poll workers from fully participating in the election. We want to support you and everyone involved in the election process in order to have an election that has integrity, includes the entire voter base of Georgia. [You can view our pledge here](#).

Director Barron, your accountability is essential in this process, and **I am here to ask that you agree a date and time to publicly declare and speak on your commitment to a transparent and fair election.** I am happy to follow up and/or meet with your offices to share our pledge and make arrangements for a statement that can be delivered at a publicly accessible space (be it safely distanced or streamed)."

**Mr. Johnson** recommended two weeks instead three weeks.

**Mr. Barron** asked **Mr. Johnson** will that be the second week of EV. **Mr. Barron** mentioned by making this adjustment it will delay the mobile unit schedule from posting to make adjustment

**Mr. Johnson** said yes
